

21-way household power distribution box

Overview

A 21-Way IP65 Power Distribution Box is a robust enclosure that safeguards up to 21 circuit breakers in both indoor and outdoor installations. Designed with dust-tight and water-resistant IP65 protection, it's built from sturdy ABS or polycarbonite, often featuring a transparent lid for visual. A 21-way distribution box is an electrical enclosure designed to manage and distribute power across 21 separate circuits. These boxes are essential for safely routing electricity in residential, commercial, and industrial environments, offering organized circuit protection through MCBs (Miniature. The main distribution box adopts self-design of new components, compact structure, beautiful appearance, easy maintenance, a variety of wiring options for users to choose, it is an ideal alternative to the old XL-21 power cabinet. The switchgear meet the requirements of standard IEC60439 etc. Finally, choose safety devices like RCBOs and Surge Protection Devices (SPD) for the best protection against faults and lightning. Standardized equipment factory connection.
