

Africa 288-core optical cable junction box

Overview

FTTh 288 Core Fiber Optics Closure Dome Junction Box YIPU Model No. SC-D288-02 is one of the main splicing equipment for 288 user access points, applied as optic fiber dome closure for protective connection and distribution between two or more cables. The primary function is to connect and splice a. This innovative design is an erect and horizontal type with one hinge on one side and opens on another side. It is the most reliable FOSC in the world. Based on an advanced. High Capacity: The primary advantage of a 288-core optical cable joint is its high capacity. It is tested under harsh conditions and stands up to even the most severe conditions of moisture, vibration, and extreme temperatures. The main business includes optical fiber trunk, optical fiber home, machine room wiring, data center wiring, network wiring and other solutions; It also provides communication equipment, such as optical fiber cables, copper cables, ODF,DDF, MDF cabling components, ODN components, service cabinets.
