

Cameroon Optical Cable Laying Construction

Overview

Cameroon's incumbent telecom operator, Camtel, has announced the deployment of an additional 3,500 km of fiber optic cable starting in 2024. Speaking about the project last October 17 during the Yaoundé Digital Week, MD Judith Yah Sunday said it primarily targets rural areas. On June 19, the two organizations signed a framework agreement for mutual infrastructure sharing. "This collaboration. MTN GlobalConnect and CAMTEL have joined forces to establish a strategic partnership that will see the commercialisation of four submarine cables in the West and Central sub-region of Africa. The project was revealed by Judith Yah Sunday (photo, left), general director of the public company, on Tuesday October 17, on. Government has officially handed over to Cameroon Telecommunications, CAMTEL, a 78-strand fibre optic cable deployed overhead in the Southern Interconnected Grid, SIG, along the Yaounde-Boumnyebel-Edea-Kribi-Douala-Limbe-Nkongsamba-Bafoussam-Bamenda segment. The infrastructure was symbolically.
