

Disk busy fiber optic switch not busy

Overview

Disable Spanning Tree on all switch ports connecting to end devices and enable PortFast setting on those switch ports, as these are endpoint devices, and cannot create fabric loops. If using Virtual Switch Tagging (multiple or tagged VLANs in ESXi vSwitches), switch . This article guides you through the most common steps to identify a connectivity problem to a shared storage device. Validate that each troubleshooting step below is true for your environment. Each step provides instructions or a link to a document, in order to eliminate possible causes and take. This document describes how to troubleshoot fiber optic interfaces by addressing some of the fiber optic module and cabling specifications. The information in this document is based on all Catalyst 9000 Series switches. It is always a great idea to test changes in a development/test environment prior to changing. I am having an issue where my Windows Server 2019 box is not seeing any of the provisioned FC LUNs in Disk Manager or Server Manager (Server ManagerFile and Storage ServicesVolumesDisks). I bring. On a big industrial plant we've replaced an old HP switch with a brand new couple of C2960x switches in stack configuration and ever since then, every 6/8 hours or so, the two fiber optics links of switch #2 go down at once.

Article Content

umount: device is busy. Why?

When running umount /path I get: umount: /path: device is busy. The filesystem is huge, so Isof +D /path is not a realistic option. Isof /path, Isof +f -- /path, and fuser /path all return nothing.

"Umount Target is Busy" - A Comprehensive Guide to

Causes cascading failures. Server maintenance delays - Inability to reboot servers or replace disks due to unkillable processes. Resource exhaustion

Error: "Device or Resource Busy" or "Device in use"

Even if you delete the ISO file from the Datastore, the ISO link to the virtual machine is not broken. If you try to delete this Datastore, you see the error

Cannot replace disk in pool. Device busy.

Some hardware requires that you take a disk offline and unconfigure it before attempting the zpool replace operation to replace a failed disk. But, why you would copy over partition table in a

SOLVED: Disk 100% busy, System Unusable

Switching back to a previously selected detail view mode seems to be fine. In other words, disk busy goes to 100% for a long time while the system is working on populating the detailed

Troubleshoot Fiber Links on Catalyst 9000 Series Switches

This document describes how to troubleshoot fiber optic interfaces by addressing some of the fiber optic module and cabling specifications.

FXO always busy tone

Power denial detection is an interruption of line power from the switch or PBX to the FXO port, which lasts at least 350 ms. The FXO interface on the router detects that power is no longer

Solved: What would cause all fiber optic ports on a

On a big industrial plant we've replaced an old HP switch with a brand new couple of C2960x switches in stack configuration and ever since then, every

Troubleshoot LAN Switching Environments

This document describes common LAN switch features and how to troubleshoot any LAN switching problems.

Why is My Disk Busy Even Though I'm Doing Nothing?

Unexpected hard disk activity isn't unusual. I'll show you how to use a free monitoring tool to determine what program is causing it.

SOLVED: Disk 100% busy, System Unusable

I ran some tests and the issue seems to be resolved, or at least the storage space does not get pegged at 100% busy like it was, though it still seems a bit slow overall.

How switch detects fiber link is not connected in other side?

I want to know how a Cisco switch detects fiber link is not connected. I know how UDLD works and tested it between two switches. Then I disabled UDLD globally and under the port but the

Link but no connection with fibre, where to next?

The problem was the old POE injector for the microwave link, not the switch, sfp or fibre. Still not sure what's wrong with the old injector and why it was causing issues for devices connected
