

# How much does it cost to replace a network server rack

## Overview

The cost of a server rack in the US can vary widely depending on its size, build quality, and features. Mid-range racks, offering better capacity and durability, usually cost between \$500. Server depth often cost more than just a network rack. There was some decent deals on Amazon for adjustable racks. Sometimes available for cheap or free but you will need a truck and help hauling it. This price variation is influenced by several factors, including: Entry-level racks can start at around £500, and installation needs may vary significantly. You're likely looking at anywhere from \$500 for entry-level used servers to \$3,000-\$5,000 for high-performance, enterprise-grade units. When. Filter by location, rack size, pricing, bandwidth, power, and DDoS protection to find the perfect colocation plan for your servers. Some companies may change their pricing or plan offerings over time, so data may not be 100% accurate. Please contact us if you find any inaccuracies.
