

How to remove the cover from a fiber optic adapter

Overview

Here are the steps to remove the cap: Step 1: Hold the optical cable firmly but gently to avoid any bending. Step 3: Apply a slight twisting motion as you pull, ensuring even pressure. However, if the cap is too tight to pull using your finger, you can use a pair of soft-tipped tweezers to remove it gently. This stripping tool provides a comfortable and secure grip to help make the fiber stripping process easy and efficient. How do I remove the grey protector without damaging the bulb?

It appears to be the entire piece under the light green cover over top. New. I have this connector on my optic fibers cable and I want to remove the connector so I can pass through a hole in the wall I have no tools for optic fiber cables and i cannot make the whole any larger, can I remove the connector from the cable and put it back on ?

you will need to get someone to. In this video you can see How to Remove Outer Jacket of an Optical Fiber Cable using a Round Cable Cutter. Maybe your fingers are too big to put LC duplex adapters into the fiber optic assembly?

Or maybe the adapters are just exceedingly small?

Also crucial is the question of how long it may take to install or remove a fiber optic adapter.
