

Huijue GPON device configuration

Overview

Learn how to configure Huawei GPON, set user and default routes, check status with commands, and remove ONT from configured Huawei ONL in this detailed guide. Huawei instead of the show use the display command. If we need to delete part of the configuration - use undo. Today I will discuss how to initially C onfigure Huawei OLT / Huawei OLT Basic Configuration. So let's go our configuration part. Here i use Huawei SmartAX MA5608T GPON OLT. At first connect PC/Laptop via console port & open terminal software, such Xshell, Putty, ZOC etc. The original manufacturer of this SFP stick appears to be SourcePhotonics SPS-34-24T-HP-TDFO based on this comment from a person who apparently worked on it. That particular module also has. A complete multi-vendor reference for GPON/EPON OLT configuration, monitoring & troubleshooting. This repository serves as a technical knowledge hub for network engineers working with FTTH (GPON/EPON) infrastructure.
