

# Madagascar Transnational Optical Cable

## Overview

Madagascar's national telecommunications operator Telma is now connected to the MeltingPot Indianoceanic Submarine System (METISS), a €50-million fibre optic cable system developed to expand broadband coverage to the region. METISS connects Mauritius to South Africa. During 2020-2024, the Madagascar fiber optic cables market witnessed a Compound Annual Growth Rate (CAGR) of 15. Notably, the year-on-year growth rate for 2023-2024 was -15. This new infrastructure will significantly reinforce Telma's capability to meet the fast-growing demand. What is set to become the world's largest submarine cable system, 2Africa, has made another African landing, this time in Mahajanga in Madagascar, as it works its way up Africa's East Coast. Madagascan operator Telma and global operator Vodafone joined forces to connect Madagascar to 2Africa this.
