

Malawi Rail Fiber Optic Cable Project

Overview

Malawi's President Lazarus Chakwera has launched phase II of the country's national fibre backbone project, central to the country's digital transformation. The project is being implemented by Huawei Technologies and will include nearly 3, 000 kilometres of fibre optic. The Plan: We lay high-capacity fiber-optic cables along this existing railway. The Benefit: It's the shortest, most direct path to the ocean. By owning this "digital highway," Malawi gains leverage. The Project is expected to lay Fiber from the northern border. The Optic Fibre Communications (OFC) is a semi-autonomous department within ESCOM that operates a national wide overhead Optic Fibre backbone network strung on electricity infrastructure reaching all parts of the country and the National Data Centre supported by the Malawi Government. com ('the Site') and are legally binding on you. The Site is owned and operated by Developing Telecoms Limited ('the Owner', 'we', 'us', 'our'). Please read the Terms before. ELSEWEDY ELECTRIC Power System Projects (PSP), in a joint venture with The Arab Contractors and Orascom, has secured a major contract for the construction of Egypt's ambitious High-Speed Rail (Green Line) project.
