

# Mali 4U Explosion-proof Switch

## Overview

Our easy to use units comply with IEC/EN 62626-1 Class I, making them exceptionally reliable and resilient even in extreme conditions. Their motor switching capacity also conforms to categories AC-3 and AC-23, DC-1 and DC-23 according to IEC/EN 60947-3. The safety switches which are a part of the installation and control product portfolio are specially designed for. Killark's explosion proof, dust-ignition proof fused and non-fused disconnect switches are suitable for use in the most harsh and hazardous areas. Price and other details may vary based on product size and color. Need help?

A compact vertical gas/vapor explosion-proof limit switch for outdoor use, with a pressure-resistant and increased-safety explosion-proof structure, conforming to IEC standards, and usable in a hydrogen gas atmosphere. A bi-colour LED ensures switch status can be seen easily from a.
