

PXI Distribution Box

Overview

The C-series tile is the primary building block used for large format video displays with arbitrary shapes. PXI Node Boxes provide power and data distribution by converting AC power and PXL data into 24VDC and data out to four strings, and pass AC power and PXL data. At PXL DISTRO, we're more than just a leading wholesale supplier of hemp, kava- we're your retail growth partner. Unlike typical distributors, we provide sales expertise, store layout consulting, and data-driven catalog and menu curation tailored to your target market. From optimizing your in-store.
