

Photovoltaic Power Module Industry Analysis

Overview

According to GlobalData's Solar PV Modules and Inverters Market Trends and Analysis report, the global solar PV module market was valued at \$102. The Asia-Pacific (APAC) region led the charge in 2023, registering \$60. Global solar PV manufacturing capacity has increasingly moved from Europe, Japan and the United States to China over the last decade. China has invested over USD 50 billion in new PV supply capacity - ten times more than Europe - and created more than 300 000 manufacturing jobs across the solar PV. IEA PVPS has released its latest Trends in Photovoltaic Applications 2025 report, revealing that the world's cumulative installed PV capacity surpassed 2 260 GW by the end of 2024, marking a 29% year-on-year increase. 12bn in market value by 2028, according to Power Technology 's parent company, GlobalData. As the world moves towards greener energy solutions, solar power has gained significant momentum. Market Leader: Jinko Solar led with over 15% market share in 2024. Crystalline Silicon will dominate with a 61. 7 billion in 2025 and is projected to reach USD 832.

Insights Insights Access the latest perspectives on the energy transition from BNEF experts through our comprehensive range of research reports and analysis, each

Photovoltaics Market Report 2025

Half-cell PV modules are expected to hold the largest market share due to their higher efficiency, lower resistive losses, and improved shade tolerance compared

IEC homepage

IEC everywhere for a safer and more efficient world. The IEC is a global, not-for-profit membership organization that brings together more than 170 countries and

Solar PV Module Market | Global Market Analysis

The solar PV module market is experiencing sustained expansion, driven by accelerating renewable energy adoption, declining module production

Solar PV Panels Market Size, Share & Trends Report,

Solar PV panels market size was estimated at \$170.25 billion in 2023 and is projected to reach \$287.13 billion by 2030, at a CAGR of 7.7% from 2024 to 2030

1200 V-360 A SiC Power Module with Phase Leg Clustering Concept

A novel packaging structure for large current rating silicon carbide (SiC) power module has been developed based on a phase leg clustering concept. A prototype 1200 V-360 A SiC power module is

Global PV Module Market Analysis and 2025 Outlook

PV modules are the central component of the solar industry. This analysis reviews market conditions that affect solar panel pricing and availability.

Solar PV Market Size, Share & Trends | Industry Report,

Countries are expanding their renewable energy mix through utility-scale solar projects, rooftop installations, and decentralized generation systems to meet

Photovoltaic Market Size, Share and Growth Report 2035

Leading market research and intelligence firm providing market research reports, consulting services, and data analytics to businesses worldwide.

Solar Supply Chain and Industry Analysis

NLR's quarterly solar industry updates provide information on trends within the solar industry. These quarterly updates cover an array of photovoltaic module and system technologies as well as energy

Executive summary – Solar PV Global Supply Chains

Meeting international energy and climate goals requires the global deployment of solar PV to grow on an unprecedented scale. This in turn demands a major

Europe Solar Photovoltaic Market Share, Size, Analysis

Europe Solar Photovoltaic (PV) Market Size & Share Analysis - Growth Trends and Forecast (2026 - 2031) The Europe Solar Photovoltaic (PV) Market

Solar PV Module Market Size & Share, Statistics Report

The solar PV module market size was valued at USD 346.6 billion in 2024 and is set to grow at a CAGR of 7.2% from 2025 to 2034, driven by rising environmental

Solar PV Module Market | Global Market Analysis

As urban and industrial power demands grow alongside clean energy commitments, on-grid solar PV systems are expected to sustain their market

Solar Photovoltaic Market Share, Growth & Trends, 2034

Solar Photovoltaic (PV) Market Trends Rising Demand for Electricity to Boost Market Growth Power consumption in the Asia Pacific and other regions has increased considerably over

Solar PV module market outlook 2025: emerging trends and market

According to GlobalData's Solar PV Modules and Inverters Market Trends and Analysis report, the global solar PV module market was valued at \$102.76bn in 2023. The Asia-Pacific

Solar PV Market Size, Share & Trends | Industry Report,

Solar PV Market Summary The global solar PV market size was estimated at USD 368.7 billion in 2025 and is projected to reach USD 832.1 billion by 2033,

Solar Photovoltaic (PV) Market Size, Share, Trends 2031

The Solar PV market shows moderate concentration: the top 10 module vendors shipped around 70% of volumes in 2025, yet power prices

Solar PV Module Market Future Trends | 2026–2035 Deep Dive

Solar PV Module Market Size, Share, Growth, and Industry Analysis, By Type (Monocrystalline Solar PV Modules, Polycrystalline Solar PV Modules), By Application (Residential)
