

S5700 Extended Optical Module

Overview

SFP+ Transceiver Module: Compact and hot-swappable, designed for flexibility in network configurations. Data Rate: Supports up to 10 Gbps (Gigabits per second) data rate. How to Stack Huawei S5700-28X-LI-AC Switches Through Service Ports?

Solution: The stacking method and steps for Huawei S5700-28X-LI-AC Switch are as follows: The connection topology for service port stacking includes chain and ring connections. This switch uses a high-performance hardware chip, with large capacity. BDCOM S5700 Series is a BDCOM-developed multi-gigabit Ethernet switch oriented for the next-generation IP metropolitan area network, large campus network, and enterprise network. BDCOM S5700 Series adopts the cutting edge hardware architecture and is equipped with the BDROS operating system with. d can be powered by AC applicable Versatile Routing Platform (VRP). With 24 GE ports(10/100/1000Base-T), it provides a large switching capacity, high-density GE interfaces for users, besides, it can be equipped with multiple types of card modules and power modules to m et the different demands of users.
