

Serbia cuts fiber optic cable

Overview

Multiple subsea fiber optic cables in the Red Sea suffered simultaneous cuts on September 6, 2025, disrupting global internet and communications traffic. The incident began at 05:45 UTC and has forced operators to reroute traffic between Asia, the Middle East, and Europe over alternate paths. While Microsoft said on Saturday that its Microsoft Azure users may experience increased latency due to multiple undersea fiber cuts in the Red Sea. Traffic traversing through the Middle East originating and or terminating in Asia or Europe regions may experience increased disruptions, the company said. Conexio is led by experienced team in telecommunications with more than 20 years of experience in telecommunication field in Srbija, Croatia and Slovenia. Conexio backbone network in Serbia was built in 2011-12. The compound annual growth rate (CAGR) for the period 2020-2024 stood at 1. We also deal with investment construction and installation of telecommunication networks:.
