

Soundproofing strips for distribution boxes

Overview

This article highlights highly effective acoustic putty pads designed to seal outlets, switches, and junction boxes, helping to curb sound transmission and improve fire safety. Additionally, it meets ASTM E84 performance specifications with a 5-flame spread and 5-smoke development. SOUNDPROFF - Minimize noise transfer between rooms with our top-rated acoustical sound proofing. Use these sheets to quiet noisy areas and line machine enclosures. They're made of humidity-resistant polyurethane foam and have a smooth, easy-to-clean facing. Range, Also known as egg crate, these sheets have peaks. The SSP SpecSeal Putty Pad is a high-performance solution for sealing through penetrations, electrical boxes, and construction gaps. Each pad measures 7¼ inches square and 3/16 inch thick, nearly twice the thickness of most standard putty pads.
