

Sri Lanka s Optical Cable Industry

Overview

The Fiber Optic Cable market in Sri Lanka is projected to grow at a high growth rate of 10.40% by 2027, highlighting the country's increasing focus on advanced technologies within the Asia region, where China holds the dominant position, followed closely by India, Japan. ²As Sri Lanka accelerates its journey toward becoming a digital hub in South Asia, optical fiber technology is emerging as a cornerstone of this transformation. 40%. In 2025, after two years of decline, there was significant growth in the Sri Lankan optical fiber cables market, when its value increased by X% to \$X. In general, consumption, however, continues to indicate a slight decrease. Optical fiber cables consumption peaked at \$X in 2021; however, from 2022. They are the sole distributor of Premium Line products, which provide extensive solutions for building structured cabling systems based on fiber-optical technologies. The main destination of Optical fibres and cables. From the high-rise data centers of Colombo's financial district to the burgeoning tech parks in Kandy and the nationwide push for high-speed connectivity, the demand for reliable, high-bandwidth networks has never been greater.
