

# Standardized Network Cabinet Pricing

## Overview

The good news is that network cabinet prices range from as low as \$100 for basic wall-mounted units to over \$3,000 for specialized outdoor models. However, understanding what drives these costs will help you make a smart buying decision. In this complete guide, we'll break down everything you need. Network cabinets are enclosed systems designed to securely store, organize, and protect networking and IT equipment such as switches, routers, patch panels, servers, power strips, and cable management components. Featuring an industry-leading 1500 lb (680 kg) equipment load, the Z4-Series SeismicFrame® can also support an additional 100 lb (45 kg) top load. They provide a secure and efficient housing for both active and passive components such as servers, switches, data cables, patch panels, and UPS systems. With high load capacity, optimized cable management, and effective ventilation and cooling systems, network cabinets significantly improve the. Belden's XHS Series of Networking and Switch Cabinets is designed to support high load capacities and proper airflow management. The cabinets offer a modular and scalable system that adapts to changing requirements for hosting multiple generations of IT equipment.
