

Zimbabwe Cloud AI Server

Overview

Econet Wireless, Zimbabwe's largest telecommunications group, has formally launched Econet AI, a dedicated business unit designed to bring enterprise-grade artificial intelligence capabilities within reach of local companies for the first time. The Ministry of ICT, Postal and Courier Services (MICTPCS), led by the Honourable Minister Tatenda A. Beuallah Chirume, and Chief Director Mr. The announcement marks one of the most significant. Econet AI Zimbabwe Data Centres provide the reliability, security, and scalability needed to support modern digital operations. The facilities are designed for businesses that require continuous uptime, advanced protection, and flexible growth options — without the burden of heavy capital. Zimbabwe's National Artificial Intelligence Strategy 2026–2030 is led by the Ministry of Information Communication Technology, Postal and Courier Services and sets a national framework to harness AI for inclusive growth, innovation and national sovereignty. Our AI understands local context, heritage, and culture - from Shona and Ndebele languages to ZIMSEC curriculum, traditional medicine, folk tales, and Zimbabwean legal systems. Experience AI that truly knows Zimbabwe. To be a leading African technology company revolutionizing industries through smart, AI-powered solutions and.
